Student Report for Parents

CIRCLE Progress Monitoring (CPM) is an assessment that your child's teacher uses to gain a complete understanding of how your child is progressing in the learning areas that are important for later school success. It also helps the teacher identify areas in which your child might need more targeted support and practice. This information enables the teacher to plan lessons to meet your child's individual needs, as well as provide you with ideas on how you can support and challenge your child at home. On the page(s) that follows, you will see a summary of your child's assessment results.

Information about the assessment your child was given

Scores may include categories that describe how well your child performed on preschool knowledge and skills.

Performance Categories

On Track

Your child's score is On Track or within the expected range.

Needs Support

Your child scored below the expected range for this age group and additional support is recommended. See Family Resources for support at home.

Monitor

Your child is approaching the On Track score for children under four years old. Continue to monitor and support your child in this learning area.

Out of Range

Based on your child's age, performance categories do not apply for this learning area. Continue to monitor your child's development in this area.

TEACHER COMMENTS:
 Bill can name all the letters and letter sounds, and is ready for kindergarten!

For questions about CLI Engage and its tools, please submit a help ticket on cliengage.org. This assessment tool efficiently and reliably provides a snapshot of your child's learning at a given point in time. The results are NOT a comprehensive, developmental evaluation, and are NOT intended to diagnose children who may have difficulty learning or other delays. Please talk to your child's teacher or an administrator at your child's school if you are concerned about your child's learning and/or development.

When one or more of the specific skill areas are not completed, the total score, performance category, and graph do not display.

Results display without a graph when a report includes scores from only one wave.
